

The Causeway Suite

Located on the ground floor behind Magherabuoy House, the Causeway suite offers exceptional integrated audio-visual facilities in a large-scale conference centre setting. Incorporated in the Suite are three bars, two sets of toilets, a lounge area, elevated stage, cloakroom, technical booth and direct entrances. The facility is the ideal venue for large meetings, dinners, live entertainment, sporting exhibitions, weddings and fashion shows.

The Causeway Suite

The Causeway Suite is a self-contained conference, meeting, exhibition and entertainment facility equipped with high-specification audio, visual and lighting systems.

The suite has its own entrance from the Hotel car park, and a reception area with separate bar. The Causeway Suite can be entered directly from the main body of the Hotel. The suite has two sets of male and female toilets and an accessible WC. There are two full service bars in the room and one in the ante-room.

The room is tiered, adding visibility and depth. The raised stage adds focus to any event and adjoins a 100m² sprung birch dancefloor.

A specialist lighting rig complements the ambient lighting, and can add excellent effect to any event. The 10,000-watt audio system is at a standard well beyond that which might be supplied by other Hotels and is complimented by professional visual systems, technical details of which are available on request.
